

DRIVER SAFETY AND FLEET MANAGEMENT

SELF-ASSESSMENT CHECKLIST

This self-assessment checklist is designed to help you evaluate the essential components needed to create a strong driver safety and fleet management program that will prioritize the safety of your workers, others on the road, and your bottom line.

- Management Commitment Statement or Policy
- A formal, written Fleet Safety Program
- Driver Safety Training Program
- Vehicle Maintenance Program
- Vehicle Inspection Process
- Driver Hiring Qualification Process
- MVR (Motor Vehicle Record) Checks
- Drug Testing Program
- Telematics System
- Hired and Non-Owned Vehicle Policy (if applicable)
- Accident Reporting Procedure and Investigation Process

For more information or samples of any of the above elements, please reach out to your Risk Management Consultant. Not sure who your consultant is? Visit buildersmutual.com/rm to find a consultant in your area.
